EDUCATION

General Assembly, Web Development Immersive | New York, NY

An accelerator designed to gain specialized skills for upcoming software engineers

Baruch College (CUNY), Zicklin School of Business | New York, NY

Bachelor of Business Administration | **Major:** Computer Information Systems | **Minor:** Communication Studies

Urban Male Leadership Academy Scholars (UMLA Scholars) | New York, NY

Empowers and supports Black and Latino male students through rigorous academic support

PROJECTS

Weather App

April 17

- A browser application that provides real-time weather information within the US
- Utilized the open weather data API to alter existing HTML elements with new, up-to-date information
- Prepared multiple validation checks during user's zip code submissions to preemptively catch errors
- Created using Brackets and utilized JavaScript, JQuery, HTML & CSS as programming languages

Java-RISK

April 17

- A 2-player browser game that was based on the popular 1957 board game Risk
- Successfully used wireframes to create the MVP & utilized user-stories to determine critical steps
- Communicated with project stakeholder on all project activities and maintained a project roadmap
- Created using Brackets and utilized JavaScript, HTML & CSS as programming language

TuneWheel

March 17

- A browser based music visualizer that reacts real-time to the song's volume and tone
- Worked alongside a team of 4 using prototyping tools to organize, test and visually demoed our ideas
- Developed an effective prototype by end of hackathon and was presented to a community of developers
- Created using Brackets and utilized JavaScript, p5.js library and HTML as programming languages

WORK EXPERIENCE

Ghostery | Technology Support Representative | New York, NY

March – Nov 16

- Kept regular contact and aided Ghostery developers by using the Atlassian JIRA's ticket submission system
- Queried databases like Amazon Redshift and Apache Hive to research issues reported by company's clients
- Wrote daily updates to Ghostery's internal database of clients and vendors with new up-to-date information

Solid State Systems LLC | Technical Writer | White Plains, NY

July – Oct 15

- Participated in the completion of project related activities such as the building of a remote office workplace
- Utilized Microsoft Excel and Visio to record and modify all network-based designs for each office location
- Reimaged computers by ghosting, updated existing software and then added the system back to the domain

Valiant Technology | Technical Support Intern | New York, NY

Nov – June 15

- Researched issues on various computer systems & databases to resolve complaints, inquiries and apply solutions
- Used Microsoft Hyper-V to create virtual lab machines for technicians' recreation of client's problems & inquires
- Executed diagnostics on system issues, set up administrative passwords and kept inventory for over 40 machines

TECHNICAL & PERSONAL SKILLS

Programming Languages: Visual C# | JavaScript | Node.js | Express.js | HTML & CSS | Git | PostgreSQL

Computer Software: Visual Studio Community | Sublime Text | Brackets | MS Visio | Photoshop | Heroku

Interests/Hobbies: Reading | Salsa Dancing | Video Games | Volleyball Playing

LEADERSHIP & DEVELOPMENT

CUNY Codes | Fall 2015 Portfolio Development Participant | New York, NY

Oct – Dec 15

- Familiarized and actively used the agile software development process during the 10-week course
- Utilized Pivotal Tracker to keep track of team's milestones and project goals on a weekly basis

Beyond Coding | Emerging Computer Programmer | New York, NY

June – Aug 15

- Learned how to explain technical jargon and presenting complex data to a non-technical team
- Strengthened understanding of data analysis for problem solving and writing code more effectively
