

# YAMIL BURGOS

## Front End Developer

yamil.burgos1293@gmail.com | 347-296-5627 | Elmhurst, NY  
github.com/yamilburgos | linkedin.com/in/yamilburgos

## TECHNICAL SKILLS

**Languages:** Visual C# | Java | JavaScript | HTML | CSS | Git | PostgreSQL

**Frameworks:** ASP.NET MVC | ADO.NET | Node.js | React.js | Express.js

**Software:** Visual Studio | Unity3D | JIRA | Photoshop | Heroku | Pivotal Tracker

## PROJECTS

**Home Insurance** | github.com/yamilburgos/HomeInsurance Dec 17

- A browser application using ASP.NET to aid registered users handling their insurance quotes
- Designed an incomplete version to further test students' technical & troubleshooting skills
- Prepared technical documentation including design documents for third-party approval
- Created using Visual Studio 2017 and utilized Visual C#, ASP.NET MVC & Entity Framework

**VideoDex** | github.com/yamilburgos/VideoDex June 17

- A browser application using YouTube's, Dailymotion's and Twitch's API to present video content
- Queried all 3 APIs for video results and provided a video player to watch content via pop-up
- Concepted and completed project within a week and was presented to a community of developers
- Created using VS Codes and utilized JavaScript, React.js, HTML & CSS as programming languages

**What's That Pokémon** | github.com/yamilburgos/WhatThatPokemon May 17

- A browser application using the PokéAPI to render information about the first 151 Pokémon
- Utilized the API to alter existing HTML elements with new, up-to-date information upon user click
- Prepared multiple validation checks upon clicking on a Pokémon entry before displaying any data
- Created using VS Codes and utilized JavaScript, React.js, HTML & CSS as programming languages

## WORK EXPERIENCE

**Platform by Per Scholas** | ASM Instructor | Bronx, NY Nov - Present

- Collaborated with Platform instructional team in creating an ASP.NET project to test student's skills
- Learned and taught Entity Framework to connect Visual Studio Community to SQL Server's database
- Prepared training material & classroom agenda based on Visual C#, ASP.NET MVC and Unit Testing

**Platform by Per Scholas** | QEA Teaching Assistant | Bronx, NY Sept - Nov 17

- Guided students in understanding core Java including exception handling, collections and abstraction
- Aided the course instructor in teaching Java, JSP (JavaServer Pages), Servlets and the Spring framework
- Assisted the rest of the Platform instructional team with their course requirements & methodology

**Ghostery** | Technology Support Representative | New York, NY March - Nov 16

- Kept regular contact and aided Ghostery developers by using the Atlassian JIRA's ticket submission system
- Queried databases like Amazon Redshift and Apache Hive to research issues reported by company's clients
- Wrote daily updates to Ghostery's internal database of clients and vendors with new up-to-date information

## EDUCATION

**Baruch College (CUNY), Zicklin School of Business** | New York, NY

Bachelor of Business Administration | **Major:** Computer Information Systems | **Minor:** Communication

**Urban Male Leadership Academy Scholars (UMLA Scholars)** | New York, NY

Empowers and supports Black and Latino male students through rigorous academic support

**General Assembly** | Web Engineering Fellow | New York, NY April - Jun 17

- Developed multiple dynamic front-end applications using React.js & deployed them with Heroku
- Created back-end web applications using JavaScript & Express.js with PostgreSQL for the database
- Collaborated alongside a team using an agile development workflow to deliver projects on-time

**LaGuardia TechHire** | Open Code Student | Queens, NY Feb - Jun 17

- Utilized HTML, CSS & JavaScript to create websites that displays as intended on modern browsers
- Learned how to articulate technical jargon and present complex code to an engineering class
- Strengthened programming fundamentals & web development skills via daily JavaScript projects
