YAMIL BURGOS

Front End Developer

yamil.burgos1293@gmail.com | 347-296-5627 | Elmhurst, NY
yamilburgos.com | github.com/yamilburgos | linkedin.com/in/yamilburgos

TECHNICAL SKILLS

Languages: Visual C# | Java | JavaScript | HTML | CSS | Git | PostgreSQL
Frameworks: ASP.NET MVC | ADO.NET | Node.js| React.js | Express.js
Software: Visual Studio | Unity3D | JIRA | Photoshop | Heroku | Pivotal Tracker

PROJECTS

VideoDex | github.com/yamilburgos/VideoDex   June 17
  - A browser application using YouTube's, Dailymotion's and Twitch's API to present video content
  - Queried all 3 APIs for video results and provided a video player to watch content via popup
  - Concepted and completed project within a week and was presented to a community of developers
  - Created using VS Codes and utilized JavaScript, React.js, HTML & CSS as programming languages

What's That Pokémon | github.com/yamilburgos/WhatThatPokemon   May 17
  - A browser application using the PokéAPI to render information about the first 151 Pokémon
  - Utilized the API to alter existing HTML elements with new, up-to-date information upon user click
  - Prepared multiple validation checks upon clicking on a Pokémon entry before displaying any data
  - Created using VS Codes and utilized JavaScript, React.js, HTML & CSS as programming languages

Java-RISK | github.com/yamilburgos/JavaRISK   April 17
  - A 2-player browser game that was based on the popular 1957 board game Risk
  - Successfully used wireframes to create the MVP & utilized user-stories to determine critical steps
  - Communicated with project stakeholder on all project activities and maintained a project roadmap
  - Created using Brackets and utilized JavaScript, HTML & CSS as programming languages

WORK EXPERIENCE

Platform by Per Scholas | QEA Teaching Assistant | Bronx, NY   Sept - Present
  - Guided students in understanding core Java including exception handling, collections and abstraction
  - Aided the course instructor in teaching Java, JSP (JavaServer Pages), Servlets and the Spring framework
  - Assisted the rest of the Platform instructional team with their course requirements & methodology

Ghostery | Technology Support Representative | New York, NY   March - Nov 16
  - Kept regular contact and aided Ghostery developers by using the Atlassian JIRA's ticket submission system
  - Queried databases like Amazon Redshift and Apache Hive to research issues reported by company's clients
  - Wrote daily updates to Ghostery's internal database of clients and vendors with new up-to-date information

Solid State Systems LLC | Technical Writer | White Plains, NY   July - Oct 15
  - Participated in the completion of project related activities such as the building of a remote office workplace
  - Utilized Microsoft Excel and Visio to record and modify all network-based designs for 3 office locations
  - Reimaged computers by ghosting, updated software and then added the system back to the domain

EDUCATION

Baruch College (CUNY), Zicklin School of Business | New York, NY

Bachelor of Business Administration | **Major:** Computer Information Systems | **Minor:** Communication

Urban Male Leadership Academy Scholars (UMLA Scholars) | New York, NY

Empowers and supports Black and Latino male students through rigorous academic support

General Assembly | Web Engineering Fellow | New York, NY   April - Jun 17
  - Developed multiple dynamic front-end applications using React.js & deployed them with Heroku
  - Created back-end web applications using JavaScript & Express.js with PostgreSQL for the database
  - Collaborated alongside a team using an agile development workflow to deliver projects on-time

LaGuardia TechHire | Open Code Student | Queens, NY   Feb - Jun 17
  - Utilized HTML, CSS & JavaScript to create websites that displays as intended on modern browsers
  - Learned how to articulate technical jargon and present complex code to an engineering class
  - Strengthened programming fundamentals & web development skills via daily JavaScript projects
